

## GRANT APPLICATION

---

### Project Information

Title: Noh Me, Know Mu

Description: Step into the ethereal realm of Noh Me, Know Mu at Burning Flipside,

Power Requirements: We will provide our own power via a generator, and may be able to tap

Safety Plan: Everyone signed a waiver.

Other projects: I'm a wood sculptor. My biggest project to date was the Four Rocking

Funds requested: \$575

This will cover approx 1/2 of the materials cost for the project.

Receiving any other No

Project Plan: Collect materials, pack materials, spend too much time worrying about

Workshop idea? 1. How to Suck Less Happy Hour, where we might serve adult Capri

Bring piece to event? yes

Project Name Noh Me, Know Mu

Logo coming soon

Website TBD

One Line Teaser Step into the ethereal realm of Noh Me, Know Mu at Burning Flipside, where the essence of creation thrives in the absence of creators.

Description	<p>Step into the ethereal realm of Noh Me, Know Mu at Burning Flipside, where the essence of creation echoes in the absence of creators. An esoterically artistic space, whose existential emptiness lures the effusive or indifferent artists and artisans to silence its vacuous echo with their ethereal tapestry of emancipated artistic expression and communal spirit.</p> <p>Noh theater will consist of a 12x20 structure decorated in a way befitting of the nothingness, featuring 2 skeletal horses (from my rocking horse sculptures). The space will have lights and sound (amplified, but we're not a dance camp, tho I can't promise there won't be dancing), and a bar. Our camp will host a couple of happy hour events and a dance workshop in the space, but outside of that Noh will serve as an open</p>
Placement choices	Noh Me, Know Mu will need street facing placement, and will sit at the front of our camp. We are a part of Cast Iron Village and are requesting to get placed next Cast Iron Village.
Burn plan	None, it will not be burned. In theory. Anything is possible. The whole world could burn.
Removal/Unburn Plan	We pack out whatever we packed in.
Set up/teardown	Theoretically, it should take 4-6 hours to set up camp, and if we do it right 2-4 hours to break it down.

<b>PROJECT TITLE</b>	Noh Me, Know Mu . . . a public theater
<b>ARTIST</b>	Carrin Welch

<b>MATERIALS</b>	<b>DETAILS</b>	<b>EST. COST</b>
Tent	12x20 or 13x25 tent	\$400.00

# Untitled CWelch Flipside Project

PROJECT TITLE	Wally's Wagon	START
ARTIST	Jason Fryer	END DATE
SUPPORT	Carrin Welch	

PHASE	DETAILS		
PROJECT WEEK:			MARCH
		Work weekends	2-3
1	Conception and Design	- Concept / design phase	
		- Complete design	
		- Engineering review	
		- Find burn & safety lead for plan	
		- Work thru other logistics (travel, vacation time, how	
2	Physical prep and build	- Materials purchase	
		- Circles CNC'd	
		- Cut and build	
		- Freak out	
		- Build	
		- Install pole / swing	
		- Complete build	
3	Project Performance & Control	- Stain/paint and finish	
		- Freak out	
		- Pack	
		- Transport and set up	
		- Be home
